

## XHD™ Chain Binders & Chain Assemblies provide Extra Strength & Security!

**XHD™ CHAIN BINDERS** are constructed of drop forged steel and designed to provide added strength, durability and superior performance. Binders exceed WSTDA T-6 Standards and the high visibility yellow E-coat finish helps protect against harsh elements and extreme road conditions.

### FEATURES:

- Available in 2 sizes: 5/16"-3/8" x 6,600 lbs & 3/8"-1/2" x 9,200 lbs
- Forged alloy steel
- Stronger two piece handle design with compression spring assembly
- Welded gear assembly to barrel
- Pre-lubricated Acme threaded screws
- Internal thread stops to prevent over-extension & loss of capacity
- 6" take up

PART NUMBER	CHAIN SIZE	WORKING LOAD LIMIT (LBS/KGS)	CASE PACK	UNIT WEIGHT (LBS/KGS)	CASE PACK DIMENSIONS	UPC	COUNTRY OF ORIGIN
50360-20	5/16"-3/8"	6,600 LBS / 3,000 KGS	2	12 LBS / 5.4 KGS	16"x16"x4"	092888412846	China
50360-21	3/8"-1/2"	9,200 LBS / 4,200 KGS	2	13 LBS / 5.9 KGS	16"x16"x4"	092888412860	China

**XHD™ 3/8" G70 CHAIN ASSEMBLIES** provide lighter weight performance of G70 chain with the added strength and size of our G80 clevis hooks. Each part is heat treated and proof tested to two times the Working Load Limit. All chain assemblies are made to NACM standards and comply with the specifications of the FMCSA and CCMTA for tie-down use.

### FEATURES:

- Available in 10<sup>FT</sup> & 20<sup>FT</sup> lengths
- G70 Carbon Steel, Zinc Plated, Alloy Chain with gold chromate finish
- G80 Forged Alloy Hooks with 19% more material in the neck of the hook
- Individually packaged for resale inside color coded barrels
